

**ENGINEERS' ONE-DAY
MEETING DRAWS 200**

Free States Represented at Convention of Mid-Continent Section of American Society of Engineers.

GO TO BARTLESVILLE NEXT

J. H. Feiger, Dean of Engineering Department of Oklahoma University, One of the Speakers.

With the 8 o'clock session Friday night which followed an all day conference in the mechanical auditorium, in out of town and local members of the mid-continent section of the American Society of Mechanical Engineers closed the first professional meeting of the session which was organized here Saturday morning, and opened its doors to the public during the second session in the afternoon of the first week of June.

States recognized as belonging to the Mid-Continent section were Oklahoma, Kansas, Arkansas, Texas and Louisiana, and each state was well represented at the two meetings of the new society officers elected president of the Tulsa chapter, George C. Hollis; J. F. Fisher, manager of the company, chairman; John H. McEwan, vice-chairman; Dean A. Fosse, secretary; Franklin P. Peterson, treasurer. Officers elected Friday afternoon were J. P. Fisher of Bartlesville, second vice-chairman; T. Oklahoma, C. P. Walker of Lawton, second vice-chairman; chairman for Kansas, W. B. Bondurant, first vice-chairman of the society.

Training in petroleum engineers in the various colleges of the southwest was the principal topic brought out for discussion during the latter part of the morning session and the afternoon session. It was at the request of the department of education at Washington that this topic received particular attention from the engineers, and several talks on the subject were made by college professors in attendance.

The convention here was strictly of a professional nature, but the visiting and resident delegates enjoyed a luncheon party at noon and dinner at night, as a body at Hotel Keuchau.

Among the distinguished delegates to the convention were J. H. Feiger, dean of the mechanical engineering department of Oklahoma university at Norman; E. J. Ferrier, dean of the engineering department of the A. & M. college of Texas College Station, Texas; Clinton E. Peacock, professor of civil engineering at the A. & M. college of Kansas, Manhattan; Charles Johnson, professor of engineering at the Oklahoma A. & M. college at Stillwater; P. E. Walker, dean of the University of Kansas at Lawrence.

With but two exceptions the program was carried out as arranged. Alf G. Heggen, prominent petroleum engineer of this city failed to appear for his 15 minute discussion and O. J. Berend, vice-president of the Oklahoma Petroleum and Gasoline company of this city, also was absent and did not deliver his talk on the "Appraisal and valuation of oil and gas-bearing properties."

Study of Airplanes.

Dr. Edwin Dehart, head of the chemistry department of Oklahoma university at Norman, when called upon for an impromptu address, made one of the most interesting talks of the convention. "Graphic motion and charts for design of longitudinal, lateral joint and explanation by Professor J. E. Pearce of the Kansas state agricultural college at Manhattan, was also one of the features of the program.

Approximately 200 engineers of the five states comprised in the Mid-Continent society are members. During the morning session constitution and by-laws were adopted and ways and means for maintaining the charter were discussed. Out of town delegates planned to leave the city today and the society is looking forward with expectation to the next meeting at Bartlesville when a large attendance is expected.

**NEGRO IS HELD FOR
MURDER OF INDIAN**

Sheridan Taylor, the negro accused of shooting to death Dick Lietka, an Indian at the home of Jack Taylor two miles southeast of Bixby on the night of May 11, was held without bond at his preliminary hearing before Justice S. M. Masey Friday afternoon for trial in the district court in the charge of the marshal.

Taylor came to Tulsa county two months ago from Ft. Smith, Ark., according to his story told on the witness stand Friday, and has been employed in farm work living most of the time with Jack Taylor on the latter's farm.

The defendant claims that Lietka came to the Taylor home late Saturday night and that Lietka punched the defendant from the front door. The defendant says he walked into the rear of the home and was again attacked by Lietka when the latter, believing the deceased had further intentions of attacking him with a deadly weapon, fired several shots at him.

Friday's Divorce Record.

Petitions for divorce were filed Friday in the district and superior courts. Jessie Markay against J. E. Markay, growing out of a desertion. Theodore White against Mrs. Mary White, wife and abandoned. Constance Angier against Alice Argentine, cruelty and neglect. Virginia Nutt against Preston Nutt, non-support. Ross Hart Cullum against Calvin M. Cullum, abuse and neglect.

To Purify and Enrich the Blood. Take GROVES TASTLESS CHUTONIC which is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. You can soon feel its Strengthening Invigorating Effect. Price 60c. Ad.
